Work Experience

- **Founder & Lead Developer / Designer** | Sketch Squad Inc. 2023 – Present

- Build and maintain client websites using WordPress (Elementor, WPForms) and custom PHP themes
- Develop full-stack web applications using HTML, CSS, JavaScript, PHP, and MySQL
- Set up and manage cPanel hosting environments, domain registrations, and email configurations
- Design complete brand identities including logos, colour palettes, and style guides

- Deliver end-to-end digital marketing assets: social media graphics, banners, and print materials
-Liaise directly with clients, translate briefs into technical and creative solutions

- **Graphic Designer (Internship)** | Nedmedia Printers — Thohoyandou, LimpopoJan 2023 – Mar 2025

- Collaborated with senior designers on branding, layout, and print-ready artwork for local businesses and government institutions
- Created visual content with Adobe Photoshop, CorelDRAW, and Canva for print and digital platforms
- Prepared high-resolution files ensuring correct bleed, resolution, and colour profiles for production
- Supported QA and final output checks to meet deadlines and client expectations
- Contributed to the published 2024 Thulamela Municipality Official Calendar — design concept approved

- **Technical Intern** | SDJ Technology During internship period

- - Gained exposure to hardware and software troubleshooting, broadening technical problem-solving skills

Key Achievements:

- Founded Sketch Squad Inc. — running a real client-facing web development and design business
- Published design contribution: 2024 Thulamela Municipality Official Calendar (concept approved)
- Successfully delivered branding and web projects for multiple local businesses
- Completed dual specialisation: full-stack development and professional graphic design
